DECEMBER 2023

## The Acorn Story

High-end bathroom furniture takes a home to the next level of style and comfort. For 30 years, Acorn have supplied prestige bathroom furniture using the latest technology combined with contemporary styles. The union of modern forms and quality functions give customers a huge range of bathroom furniture combinations.

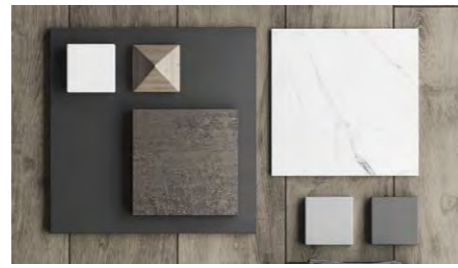

A family owned business, working closely with a number of trusted suppliers, ensures a seamless production and supply process. Designed and manufactured in the UK to our exacting standards, Acorn's large range of styles and thorough manufacturing processes enable the products to speak for themselves.

Vigorous testing of every component means our furniture can survive the harshest bathroom environment. We believe in our products so we offer a 5 year guarantee on all furniture within this brochure.

Acorn are proud to be an ethical manufacturer whose principles are founded on the reduction of our carbon footprint throughout the supply chain and a responsible approach to both quality and the satisfaction of our clients.

Acorn believe strongly that our planet is our responsibility, that is why for every piece of bathroom furniture we sell we secure the planting of a tree via the Eden Reforestation Project.

### Specialist Advice

Choosing your dream bathroom can be an emotional decision. All Acorn furniture is available in 19 colours and 3 door designs giving unrivalled choice and design possibilities.

The ability to combine both modular and fitted furniture seamlessly in one cohesive design allows for truly customisable and unique bathroom design opportunities.

Ready to assist you along the way, your specialist local Acorn bathroom retail showroom has extensive industry knowledge and their dedicated service will turn your ideas and dreams into a bathroom reality!

### Flawless Designs

The Acorn design team take inspiration from all aspects of life, bringing together, not only aesthetic beauty, but everyday practicality. Blending form and function seamlessly to create sensory products designed to be used in everyday sanctuaries to elevate your well-being.

Make a statement with a **modular** design

Go wall to wall with **fitted** furniture

Have it your way by combining **modular & fitted**

## It's All In The Detail

All Acorn furniture is available in 3 door designs including modern, contemporary and traditional.

All of our furniture is designed and expertly crafted in our UK manufacturing facility giving you piece of mind that quality is always assured.

### Level Design

With clean lines, this minimalistic slab door design gives a sophisticated yet modern feel to any bathroom design.

### Laura Design

Featuring a contemporary integrated handle, our Laura door allows for a seamless flowing aesthetic.

### Milan Design

For the more classic at heart, the Milan door brings true elegance to the more traditional bathroom design.

Level Design

**Matt Highland Green, Level Design**

The calming nature of Matt Highland Green effortlessly connects you to the outside world in the comfort of your own home. Delicately enhanced using our exclusive smooth handles and elegantly finished with Chrome highlights.

### Creating the design

Helping to bring this bathroom to life, our interior designers have paired the Esta basin mono mixer with the Lune back to wall WC to continue the smooth clean lines of this contemporary design.

Lune Back to Wall WC

Page 107

## Matt Grey Onyx, Level Design

A luscious deep grey combined with black finishing accents creates a calm but modern style. This monochromatic design is heightened through the introduction of a Sparkling White solid surface worktop and splashback bringing a true sense of luxury.

### Creating the design

Bringing together modular and fitted furniture aspects, our interior designers have enriched this beautifully simple design with Matt Black elements.

Page 105

### Stone Matt, Level Design

The warm earthy tones of Stone Matt perfectly balance this cleverly designed wall to wall fitted furniture design. Using wall mounted furniture in this manner helps to create the illusion of more open space in the bathroom.

### Creating the design

This 'His & Hers' bathroom is perfectly accentuated with the use of two Konnex 55 round illuminated mirrors and the design is completed with a pair of Esta tall basin mixers.

### Slate Grey Gloss, Level Design

Our designers have combined Slate Grey Gloss with Matt Black accents in this functional and appealing design, bringing both valuable storage solutions and practical necessity together seamlessly.

### Creating the design

Combining two handle styles into one overall design attaches an element of playfulness to this understated yet elegant design.

### Cashmere Gloss, Level Design

An earnest, timeless opulence, created through the use of Cashmere Gloss cabinets enriched with Neo Quartz solid surface worktops and beautifully finished with a mineral cast fully back to wall semi recessed basin. Combining wall and floor mounted elements helps to create flow in this chic design.

### Creating the design

Ample storage for the things you want to hide and display space for the things you don't. This smart design is highlighted with minimalistic but complementary details, from lights to handles, every detail counts.

**Matt Tacora Red, Level Design**

Naturally inspiring and functionally rewarding, the Level design units in Matt Tacora Red provide a muted yet fashionable aspect. The darker interior and white inline basin only add to the external clean, uncluttered styling.

**Creating the design**

The smooth curves of the Sima WC complement the unpretentious unit styling and the chrome knob handles and taps provide glints of richness. The room is dynamically lit from the LED border of the Konnex mirror.

Dove Grey Gloss, Level Design

Gloss Grey, White and hints of Black combine here to produce an enduring bathroom design. The subtle curves of the Nicole basin confluence with the Level design doors to create a timeless bathroom concept.

Creating the design

The Black and Chrome finish of the Harrogate handle brings a detailed touch to the Grey Gloss doors and our Konnex Bluetooth mirror provides light and sound when connected to your mobile phone.

Page 120

**Stone Matt, Level Design**

Our earthy influenced Stone Matt finish works well with Chrome handles and their curved profile complements the flat Level design doors. A Neo Quartz solid surface worktop is an elegant finish on top of the units.

**Creating the design**

Bridge curved handles provide effortless style and marry seamlessly with the Esta chrome taps. Further curves transpire from the Nemi basin and additional storage is found in the double door Konnex mirror cabinet.

Page 95

**Black Zebrano, Laura Design**

Combining dark and light elements to create a trendsetting bathroom grace, this concept is strengthened with Chrome finishes. Black Zebrano Wood Grain finishes connect to a natural ambience and provide a relaxing well-being.

**Creating the design**

Geometric elements and chrome details provide the modern finish to natural curves. An LED mirror exudes pure light to impart clarity and ambience to this bathroom concept.

**Hamilton Oak, Milan Design**

Hamilton Oak finished units with our inset Milan doors provide the epitome of the classic bathroom. A warming spirit from naturally inspired elements is perfect for a family bathroom,

### Creating the design

Chrome taps and handles beautifully contrast with our naturally influenced Hamilton Oak units. The Konnex mirror cabinet provides extra storage and practicality.

### Graphite Matt, Milan Design

A Graphite finish with inset Milan doors provides the ultimate in-vogue bathroom. Softness is highlighted by the Chrome Livello handles, Harvey semi recessed basin and Sima WC. These units would also suit a smaller, cloakroom style bathroom.

### Creating the design

Complementing curved Chrome handles with a convex semi recessed basin presents a unique styling approach and the details of the knurled tap only enhances this.

# Home Pressure Diagrams

Gravity Fed (Low Pressure) System

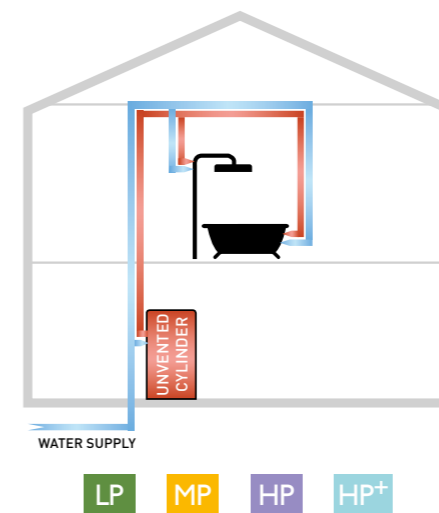

- Cold water storage tank in the loft
- Hot water cylinder

Boosted Gravity Fed (Low Pressure) System

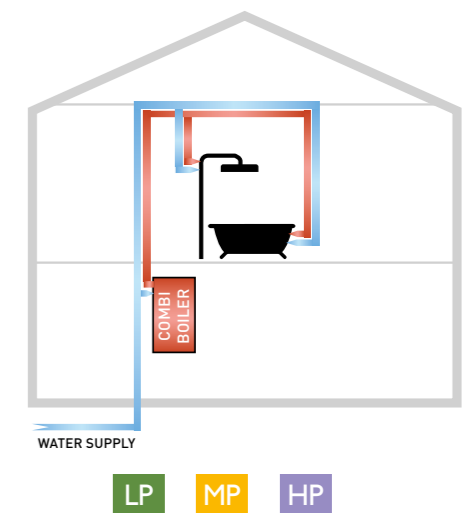

- Cold water storage tank in the loft
- Hot water cylinder
- Booster pump

Acorn recommend the installation of an inline water filter to prevent the build-up of limescale and maintain the longevity of all your household products, including your taps and showers.

Mains High Pressure System

- Unvented cylinder with expansion vessel

Combination Boiler System

- 'Combie' boiler providing hot water and heating

<b>LP</b>	<b>MP</b>	<b>HP</b>	<b>HP+</b>	
Minimum of 0.2 Bar	Minimum of 0.5 Bar	Minimum of 1.0 Bar	Minimum of 2.0 Bar	World leading thermostatic cartridges

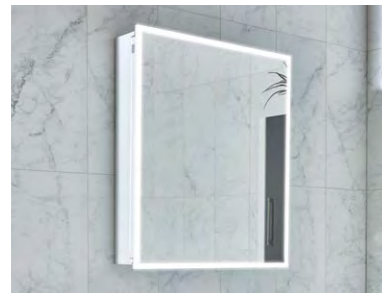

For showers on a low/medium pressure system, we recommend that a negative head pump is installed.

## Electrical Zones

All installations must comply to guidelines which are based on a zonal concept. The diagram shows this concept and highlights the 3 zones used.

**Zone 1** - Refers to the area above the bath or shower up to a height of 2.25 metres and requires a minimum rating of IPx4 (splash-proof) plus RCD protection.

**Zone 2** - Covers an area 0.6 metres wide immediately next to, and all around zone 1. Wash basins should also be treated as zone 2. The minimum rating here is IPx4.

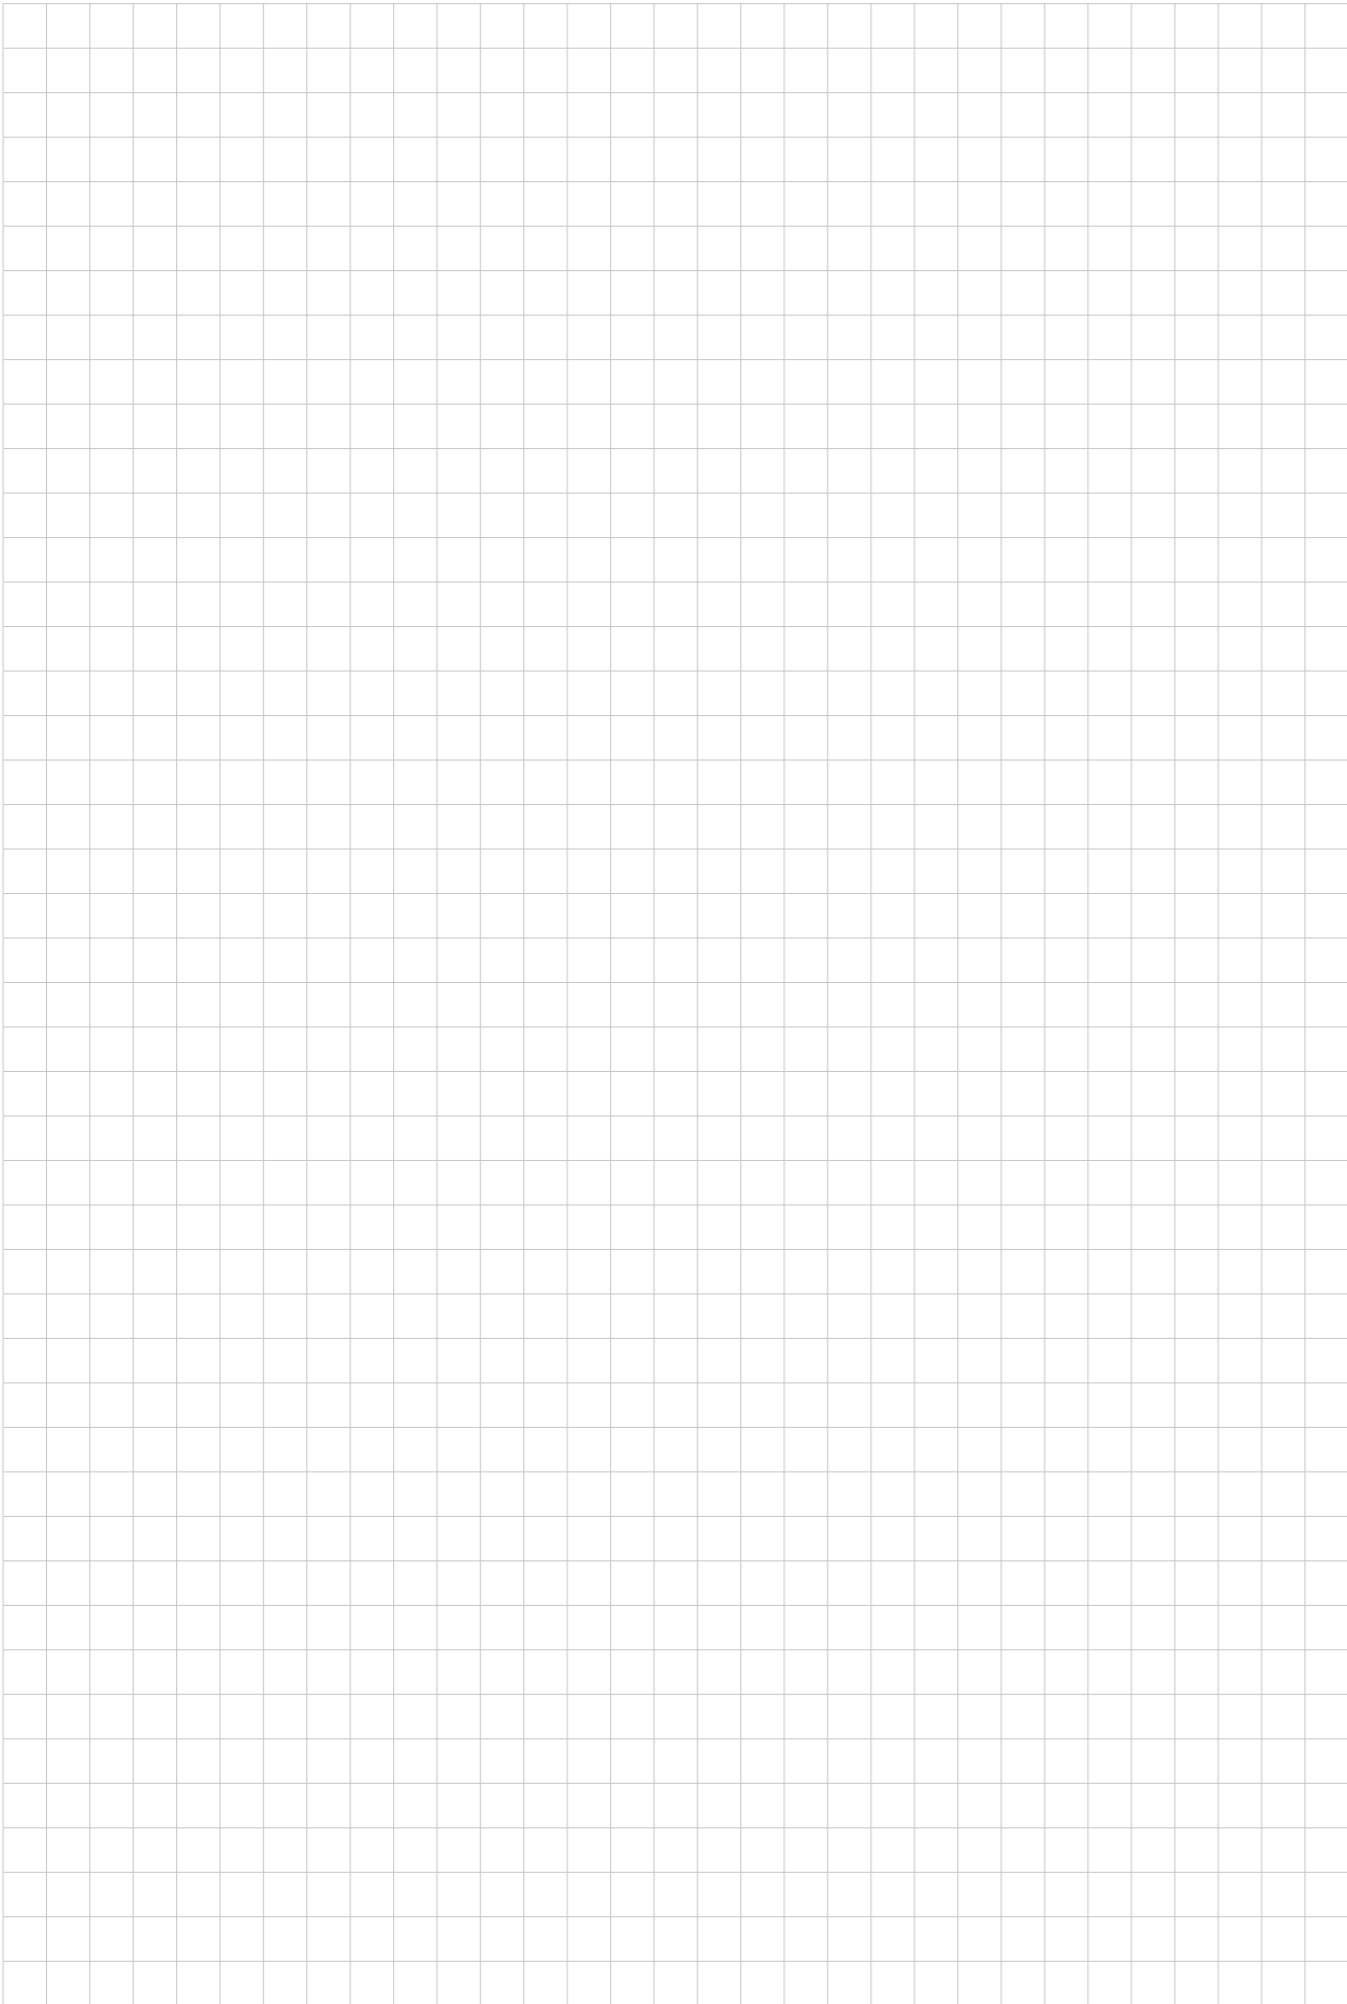

**Zone 3** - Has no special requirements, unless water jets are likely to be used for cleaning purposes.

Thank you for choosing  
Acorn luxury bathroom products  
for your new dream bathroom.

## Product Guarantee

All product guarantees are subject to the following terms and conditions: The product has been fitted/installed in a well ventilated room with appropriate air extraction and in accordance with the appropriate fitting instructions, local bylaws, by a competent qualified installer and in line with general good plumbing practice; The product has been maintained and cared for in accordance with the instructions (including regular and appropriate cleaning); If any product has been modified, misused, neglected, wilfully or accidentally damaged; or if Acorn have not received payment in full; then the product guarantee is invalid.

The guarantee on all products is 5 years (Bath Panels have a 1 year guarantee) from the date of supply from Acorn unless otherwise stated. The guarantee only covers the material structure of products (excluding shattering glass) and not serviceable moving parts that perish due to fair wear and tear such as cartridges, valves, hinges, seals, bulbs etc.

In the event of a guarantee claim, the liability of Acorn is limited to the product supplied and does not extend to consequential loss or damage arising from defective product. The guarantee applies to the original purchaser ONLY and is not transferable. This guarantee does not affect your statutory rights and is applicable in the UK Mainland and Republic of Ireland (exclusions apply, see website for details). All products installed in a commercial or rental property environment carry a 12 month guarantee. All electrical goods carry a 12 month guarantee.

The specifications and prices contained within this brochure are for information purposes only and, as our products are continually updated, are subject to change without prior notice. We cannot be held responsible for the use of incorrect dimensions shown for first fix without the actual products on site. All dimensions stated in this brochure are nominal and are subject to manufacturing tolerances. All prices include VAT at 20%.

Ensure that a shower head is never installed facing outwards towards the shower enclosure/door as water will inevitably escape if large amounts of water are purposely directed at seals or gaps between aluminium and/or glass. If wet doors swing out into a bathroom, water will drip down onto the floor; please ensure that floor coverings are suitable for bathrooms.

## Order Amends and Cancellations

Due to all Acorn products being produced specifically to customer size and colour requirements, we are unfortunately unable to accept any returns, amendments, or cancellation of orders once production has commenced.

Should you realise an error has been made then please contact us with immediate effect and we will consider any order amendments based on the production status of each individual order.

## Returns

Any items that have been reported and accepted by Acorn as faulty or damaged will be credited in full upon inspection on return to our warehouse. Please note that any damages or shortages will only be accepted if reported within two days of receipt in writing by email. Notification outside of the two-day period may invalidate a claim.

Upon receipt of the returns request our returns team will process the relevant paperwork to arrange the collection of the requested products. We may sometimes require additional information relating to the returns request such as images of the products to highlight any relevant reason for return. It would be a benefit if these can be provided at the time the returns request is submitted to us. Once confirmation that the goods are available for collection, we will arrange to collect the items via our own vehicle, or carrier. Should a failed attempt be made to collect the goods for return then a fee to cover the transport costs for the failed delivery may be applied and deducted from the value of the credit.

All items that are due to be collected must be packaged in original packaging to reduce the risk of damage during transit. Any products that are found to be returned damaged due to being unsuitably packed may result in a request for credit being refused.

Any products returned in a condition other than that which is stated in the returns request may result in a request for credit being refused.

As per our conditions of sale and terms of our guarantee, the liability of Acorn is limited to the product supplied and does not extend to consequential loss or damage arising from products received defective or damaged.

All photographs are for general guidance only and colours are limited to the restraints of the printing process. E&OE.
